

Rajdeep Sharma

SUMMARY

eLearning Developer with 4+ years of experience in designing and developing interactive learning solutions using Articulate Storyline 360, Adobe Captivate, and multimedia authoring tools. Experienced in Instructional Design methodologies, including ADDIE and Bloom's Taxonomy, AI-assisted content development, SME collaboration, and LMS deployment. Skilled in creating engaging, learner-centric training programs for corporate and vocational learning environments.

CORE COMPETENCIES

Instructional Design (ADDIE, Bloom's Taxonomy), Articulate Storyline 360, Articulate Quiz Maker, Rise 360, Moodle LMS, Audio Narration / Voiceovers, Video Editing, Flip pdf, Camtasia, Adobe Illustrator, Adobe After Effects, Adobe Premiere Pro, HTML, CSS, AI Tools & Prompt Engineering, Project Coordination, Stakeholder Management, LMS Deployment, Storyboarding, SCORM 1.2 / SCORM 2004, Quality Assurance Testing

PROFESSIONAL EXPERIENCE

Executive – E-Learning Developer

AISECT India

April 2022 – Till Now

Key Deliverables:

- Create project plans, design, and develop each course including graphics, simulations, exercises, and assessments using Adobe Illustrator, and Camtasia.
- Collaborate with instructional designers, SMEs, and stakeholders to transform learning requirements into engaging digital learning experiences.
- Convert courses into SCORM (online learning standard) format so that content can be used.
- Coordinate with Subject Matter Experts (SMEs) to improve current training courses and ensure adherence to eLearning style guides and flow
- Review and quality Analysis of internally as well as externally developed eLearning courses for error-free outputs.
- Coordinate with cross-functional teams, SMEs, reviewers, and LMS stakeholders to ensure timely project delivery.
- Apply Instructional Design principles, including ADDIE and Bloom's Taxonomy, during course planning and development.
- Utilized AI-powered tools to accelerate content creation, visual asset generation, scripting, and productivity workflows.
- Manage multiple eLearning projects simultaneously while maintaining quality standards and delivery timelines.

Sr. eLearning Developer

Alogic Data

June 2020 – March 2022

Key Deliverables:

- Responsible for designing, building, and delivering eLearning solutions across a wide variety of topics.
- Developed eLearning modules using Articulate 360, Storyline, and Adobe Captivate.
- Developed interactive eLearning modules incorporating graphics, animations, multimedia elements, and assessments to enhance learner engagement.
- Collaborated with clients, SMEs, and project teams to gather requirements and deliver effective learning solutions.
- Participated in storyboarding, content structuring, and learning content development activities during project execution.
- Designed eLearning templates using Articulate Storyline 360 and Adobe Captivate.
- Experienced with audio voiceovers, screen recording demonstrations, video editing, and media transcoding.

KEY SKILLS

- Hands-on experience with Articulate 360, Storyline, and Adobe Captivate to create eLearning solutions.
- Creating media assets for e-learning modules, animating graphics and text, and editing audio and video elements according to the storyboard.
- Excellent knowledge in terms of concepts, graphics, animations, content, and flow to make training modules more effective.
- Collaborated closely with IDs and subject matter experts to fully comprehend storyboard content, graphic descriptions, and concepts.
- Extensive experience with Articulate 360, Storyline, and Adobe Captivate templates.
- From beginning to end All phases of the design process are understood.
- Ability to work in a project environment with tight deadlines and high expectations.
- Leveraged Adobe After Effects for basic video editing, enhancing educational content for AISECT Learn.
- Working knowledge of Instructional Design frameworks including ADDIE and Bloom's Taxonomy.
- Experience using AI tools and prompt engineering techniques for content development, media generation, and workflow optimization.
- Strong project coordination and stakeholder communication skills across multiple concurrent projects.

EDUCATION

- B.COM (Computer)
- MBA (Marketing & HR)
